DELMARVA VETERAN BUILDERS HIRED TO RETROFIT AND RENOVATE ATLANTIC GENERAL PEDIATRIC CARE

SALISBURY, Md. – April 22, 2015 – Delmarva Veteran Builders, the region’s only commercial construction firm dedicated to bringing employment to U.S. Armed Forces Veterans, announced it has been hired to retrofit and renovate Atlantic General Pediatric Care on Gina Renee Plaza on Route 50 in Ocean City, Maryland. The 2,350 square foot project will be for the relocation of a local AGH pediatrician and allow for the addition of a new pediatrician under the AGH umbrella.

“Delmarva Veteran Builders is thrilled to have the opportunity to work with Atlantic General again,” said Chris Eccleston, Delmarva Veteran Builders. “We look forward to growing the relationship we have with Atlantic General and will continue to support them in meeting the healthcare needs of the community.”

“Delmarva Veteran Builders is familiar with the building because of the renovation they did on the primary and specialty patient care center,” said Kim Justice, Vice President of Planning/Operations, Atlantic General Hospital. “Because of the time limitations and being that we were very satisfied with the original job, we awarded this project to Chris and his team.”

The original tenant in the space was an Urgent Care Center. AGH plans to use the existing exam rooms for the practice and has hired DVB to reconfigure the rest of the space to me more pediatric friendly. The two pediatricians who will be seeing patients at Atlantic General Pediatric Care are Dr. Anita Pascucci and Dr. Laura Scope.
