DELMARVA VETERAN BUILDERS COMPLETES RENOVATIONS FOR COLUMBIA CARE

SALISBURY, Md. – July 16, 2018 – Delmarva Veteran Builders, the region’s only commercial construction firm dedicated to bringing employment to U.S. Armed Forces Veterans, announced it has completed a 4,500 square foot interior fit-out for Columbia Care at 200 South Dupont Blvd in Smyrna, Delaware. The project was completed in seven weeks and included new electrical and mechanical systems, fire suppression, new walls and interior finishes, while meeting all safe construction standards.

“The required occupancy date, and tight schedule caused other general contractors to pass on this project,” said Gregory Murphy, national construction manager, Columbia Care. “Delmarva Veteran Builders delivered the space on time and on budget. The superintendent, Brian Sanders, understood the urgency and was incredibly proactive solving each and every problem that arose. DVB understands customer service, and demonstrates a true pride in their efforts and end product. I would highly recommend them.”

“As the nation’s largest manufacturer and provider of medical cannabis products, we were thrilled to have the opportunity to bring Columbia Care’s first medical cannabis dispensary in Delaware to life,” said Chris Eccleston, president, Delmarva Veteran Builders. “With this being only the second medical cannabis operator in the state, DVB values the relationship it has with this client for supporting the local community through job and industry growth in Delaware.”
