DELMARVA VETERAN BUILDERS COMPLETES NEW AMPHITHEATER FOR THE CITY OF SALISBURY

SALISBURY, Md. – August 21, 2018 – Delmarva Veteran Builders, the region’s only commercial construction firm dedicated to bringing employment to U.S. Armed Forces Veterans, announced it has completed the design-build of the new amphitheater for the City of Salisbury. It is located in front of La Quinta on the south prong of the Wicomico River and the completion coincides with the kick off of the National Folk Festival.

“We are proud to serve the citizens and community of Salisbury and Wicomico County, a responsibility we do not take lightly,” said Chris Eccleston, Delmarva Veteran Builders. “We incorporated sustainable and affordable practices in the construction of the venue as well as including public art in the design. This structure is a monument for downtown and the local arts community now and for years to come.”

The amphitheater includes open seating space and a covered stage. Delmarva Veteran Builders worked with Vista Design on the design of the space.

"As a City - we are committed to no longer letting plans collect dust on a shelf. We are working hard to implement all of the revitalization plans that we have adopted," said Jake Day, Salisbury Mayor. "This venue has the potential to be a jewel in the crown of our Riverwalk Park and our entire city; a public space designed for celebration of music and the arts, and just in time for the National Folk Festival."
